MSLC Team

** denotes Key Team Member*

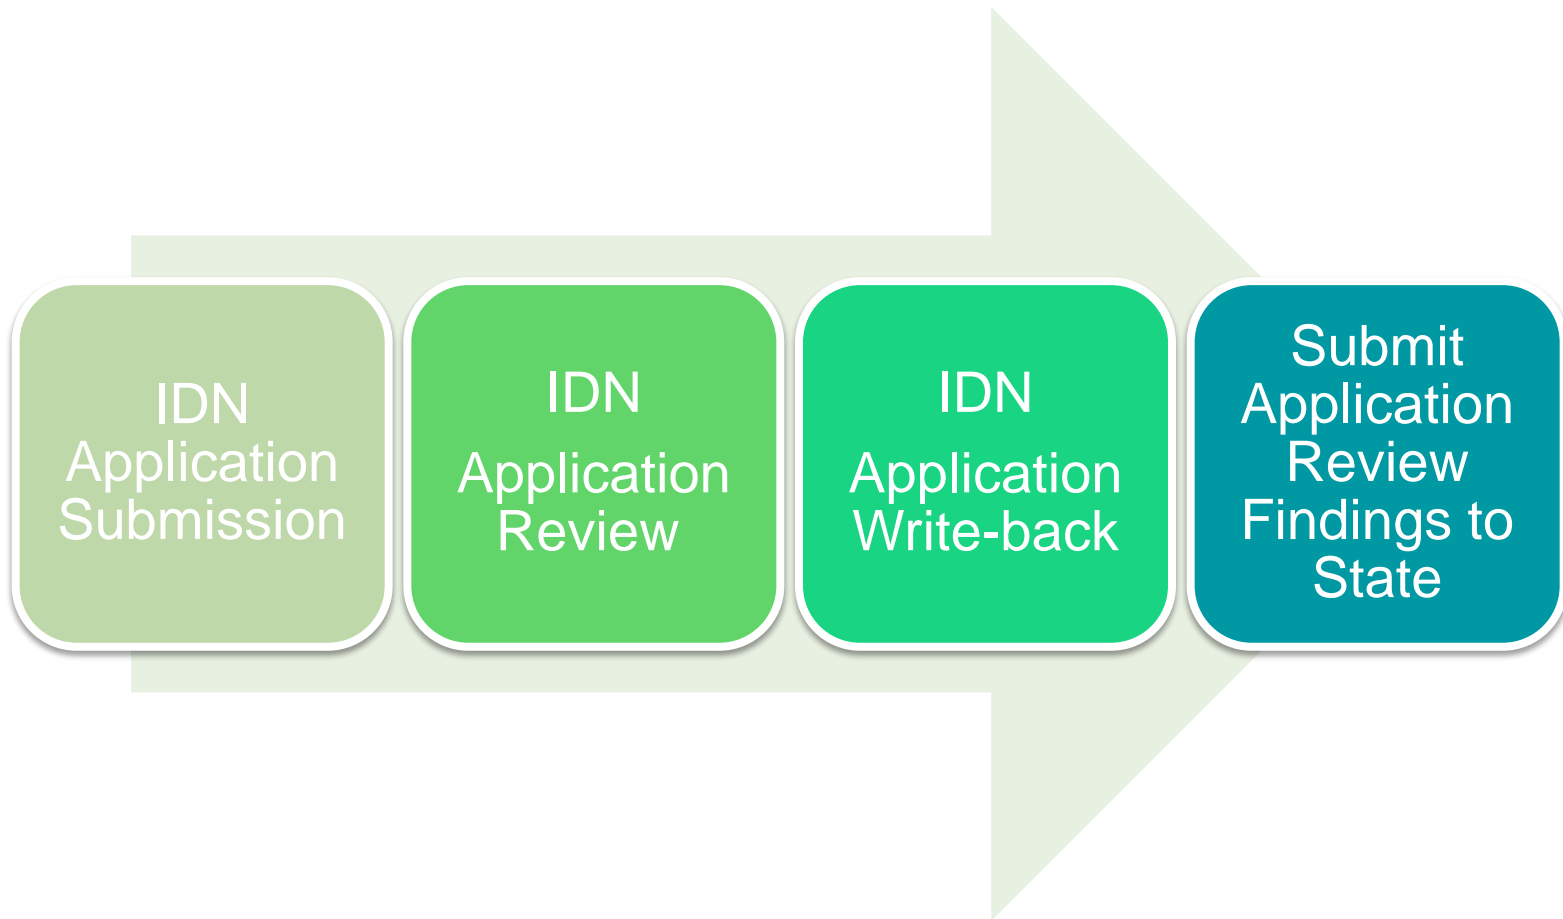

Independent Assessor Responsibilities

7

- Conduct an impartial review of all proposed Integrated Delivery Network (IDN) applications.
- Submit IDN application approval recommendations to the State including identifying weaknesses and gaps in applications.
- Conduct an impartial review of all proposed IDN project plans.
- Assemble an Independent Review Panel (IRP) to evaluate the project plan submission and review proceedings.
- Submit IDN Project Plan approval recommendations and IRP findings to the State.

Application Review Process

IDN Application Review Process

Each application will be reviewed for completeness and scored on the following:

- Qualifications and capabilities of the Administrative Lead.
- Composition and breadth of the proposed network.
- Comprehensive community and stakeholder engagement plan / process.
- Plan's understanding of regional behavioral health needs faced by Medicaid beneficiaries.
- Evaluation of the project plan development process.

Timeline - Request for information – the “write-back” process

10

If during the review process, we find we require additional information or clarification:

1. IDN Application Lead Primary Contacts will be emailed questions or a request for additional information.
 - The applicant will be given three business days (due date will be included in the email) to answer the questions or provide additional requested documentation.
2. If we still have questions, the applicant will be contacted and we will set up a time to discuss any remaining questions via a brief telephone call.

Please note – we anticipate the majority of the review and “write-back” process will take place during the weeks of 6/13/16 and 6/20/16.

Contact Information

- All communications from the Independent Assessor will be made through an email box specifically set up for the New Hampshire IDN project.
- All “write-back” emails will be sent from this email box.
- Any questions related to this process can be submitted to:

NHDSRIP@MSLC.COM
